

HI-TECH ENGINEERS FIRM

Micro Processor 3 Load Cell Weighing and Bagging Machine

Formerly HI-TECH ENGINEERS

Since : 1998

Model - 5 : TMS - WB CLASSIC

Weighing Range - 25 Kg to 100 Kg

Output - 450 Bags to 500 Bags / Hour

Accuracy - ± 20 Grams

Depends upon flow character of material.

- ** Quality product from ISO 9001-2008 certified company**
- ** Relax... No frequent calibration, No frequent mismatching with platform scale weight**
- ** Three Load Cell self aligning, Load Bucket swing free, Spanner free, Maintenance free, Fitt it and forget it Latest weighing Technology.**
- ** Equipped with latest, high speed state of art Micro-Processor Based controller from world renowned Japanese Manufacturer.**
- ** Higher output upto 9 bags / minute with consistent accuracy**
- ** Adjustment free load bucket i.e, no external flexture / wire rope**
- ** Adjustment free Individual coarse, fine and super fine shutters hence no adjustment.**
- ** Compact design minimum height required to instal the machine.**
- ** 3 Load Cell concept hence more stable and Trouble free**
- ** Controlled material flow design. No need to adjust bin control gates frequently.**
- ** Optional surge hopper for Consistent accuracy.**
- ** Existing weighing machine of any make can be upgraded.**

Formerly HI-TECH ENGINEERS

HI-TECH ENGINEERS FIRM

Micro Processor 3 Load Cell Weighing and Bagging Machine

- ** Higher sampling speed up to 1000 samples per second.
- ** Auto Zero and Auto Tare Function.
- ** Programmable Auto in - flight control correction.
- ** Bold VFD display. Optional touch Screen.
- ** Alarm for over / under weightment.
- ** Error message and Diagnostic function.
- ** Optional standard deviation calculator.
- ** Modbus RTU communication, easily connectable to existing DCS.

Various feeding arrangements

- ** Screw Feeders
- ** Belt Feeders
- ** Vibro Feeder to pack powder
- ** Flakes
- ** Pellets and other non free flowing materials
